

This Health Department receives numerous requests for the names of Connecticut licensed private well, subsurface sewage contractors and engineers. We do **NOT** recommend specific contractors or engineers for either new wells or the repair or abandonment of wells, new septic systems, repairs, or clean-outs.

However, we can provide the following names of contractors and engineers, understood to be appropriately licensed by the State of Connecticut. You can also find a complete list on the DPH website: www.ct.gov/dph "Verify a License"
