SUBJECT: VEHICLE #27

Gentlemen:

As part of the 1988 - 1989 fiscal budget, monies were allocated to replace vehicle #27, a K-Car. After going out to bid on this item, the lowest bidder allowed a trade-in of \$150.00 on this vehicle.

In light of this fact, we are requesting that this vehicle be retained for another year's service, utilizing approximately \$400 - \$500 of the budget monies for repairs.

Respectfully submitted,

John A. LaFramboise
Distribution Superintendent

SUBJECT: ELECTRICIAN DOWNGRADE

Gentlemen:

The position of Electrician has proved to be an extremely difficult slot to fill at the Electric Division. Significant time and effort has gone into advertising and interviewing, only to find that the few candidates who were qualified were not interested in the position.

Therefore, I am asking that this position be downgraded to that of Apprentice Electrician, in this case only. This would allow the normal progression from an entry level position, Apprentice, to that of a full Electrician. This change would require no additional funding, as monies were budgeted in the 1988 - 1989 fiscal budget.

Approval of the Public Utilities Commission is desired, and your continued support is appreciated.

Sincerely yours,

William D. Barry
General Manager - Electric
