Department of Public Works
29 Town Farm Road
Wallingford, Connecticut 06492

Telephone (203) 294-2105
Fax (203) 294-2107

PRESS RELEASE

Issued June 3, 2019

Mr. Rob Baltramaitis, Director of Public Works, reminds Wallingford residents that grass clippings are **prohibited** at the Town's Compost Center and Resident Disposal Center. It is unlawful to deposit grass clippings onto public streets, sidewalks or other public property; failure to do so may be punishable by fine(s).

It has been the State of Connecticut and Town policy to keep grass clippings out of the waste stream. Since the early 2000's, the Town has advocated using a mulching mower or purchasing a kit to convert your existing mower.

For more information, visit the **Composting, Recycling & Solid Waste** page on Town's website (www.town.wallingford.ct.us) to read the "Don't Bag Your Grass" handout or visit the Department of Energy & Environmental Protection page on Composting & Organics Recycling for information on **GrassCycling** (https://www.ct.gov/deep/cwp/view.asp?a=2718&q=325344&deepNav_GID=1645).
